First part of the trek: average heights between 700 and 1600 m on marked paths, for all walkers.

The path goes through the Ax Valleys, connecting villages. Landscapes are very varied: mountain villages with narrow streets and short grass fields, North slope forests, South slope pastures.

Last stages: through higher mountains, in Orлу National reserve, on 4250 ha, with very rich fauna (Pyrenean chamois, marmots).

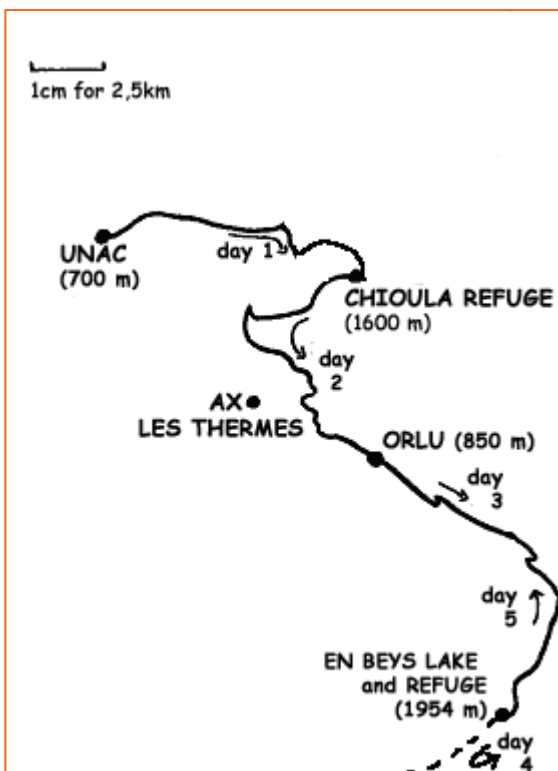

Dogs are strictly forbidden in Orлу Reserve, so it can't be your companion for this trek.

It's a sport tour because of the important height differences each day. The children can't rise on the back of the donkey for most of this trek because paths are steep. So children over 8 years old can hike on this trek.
